About the game

Exciting Virtual Escape Room

Beat the Hacker is an online team building game, designed to energize your team and let them have a great time together.

In the game, teams of 3-6 players are challenged to solve fun and tricky missions of various types.

What you get out of it

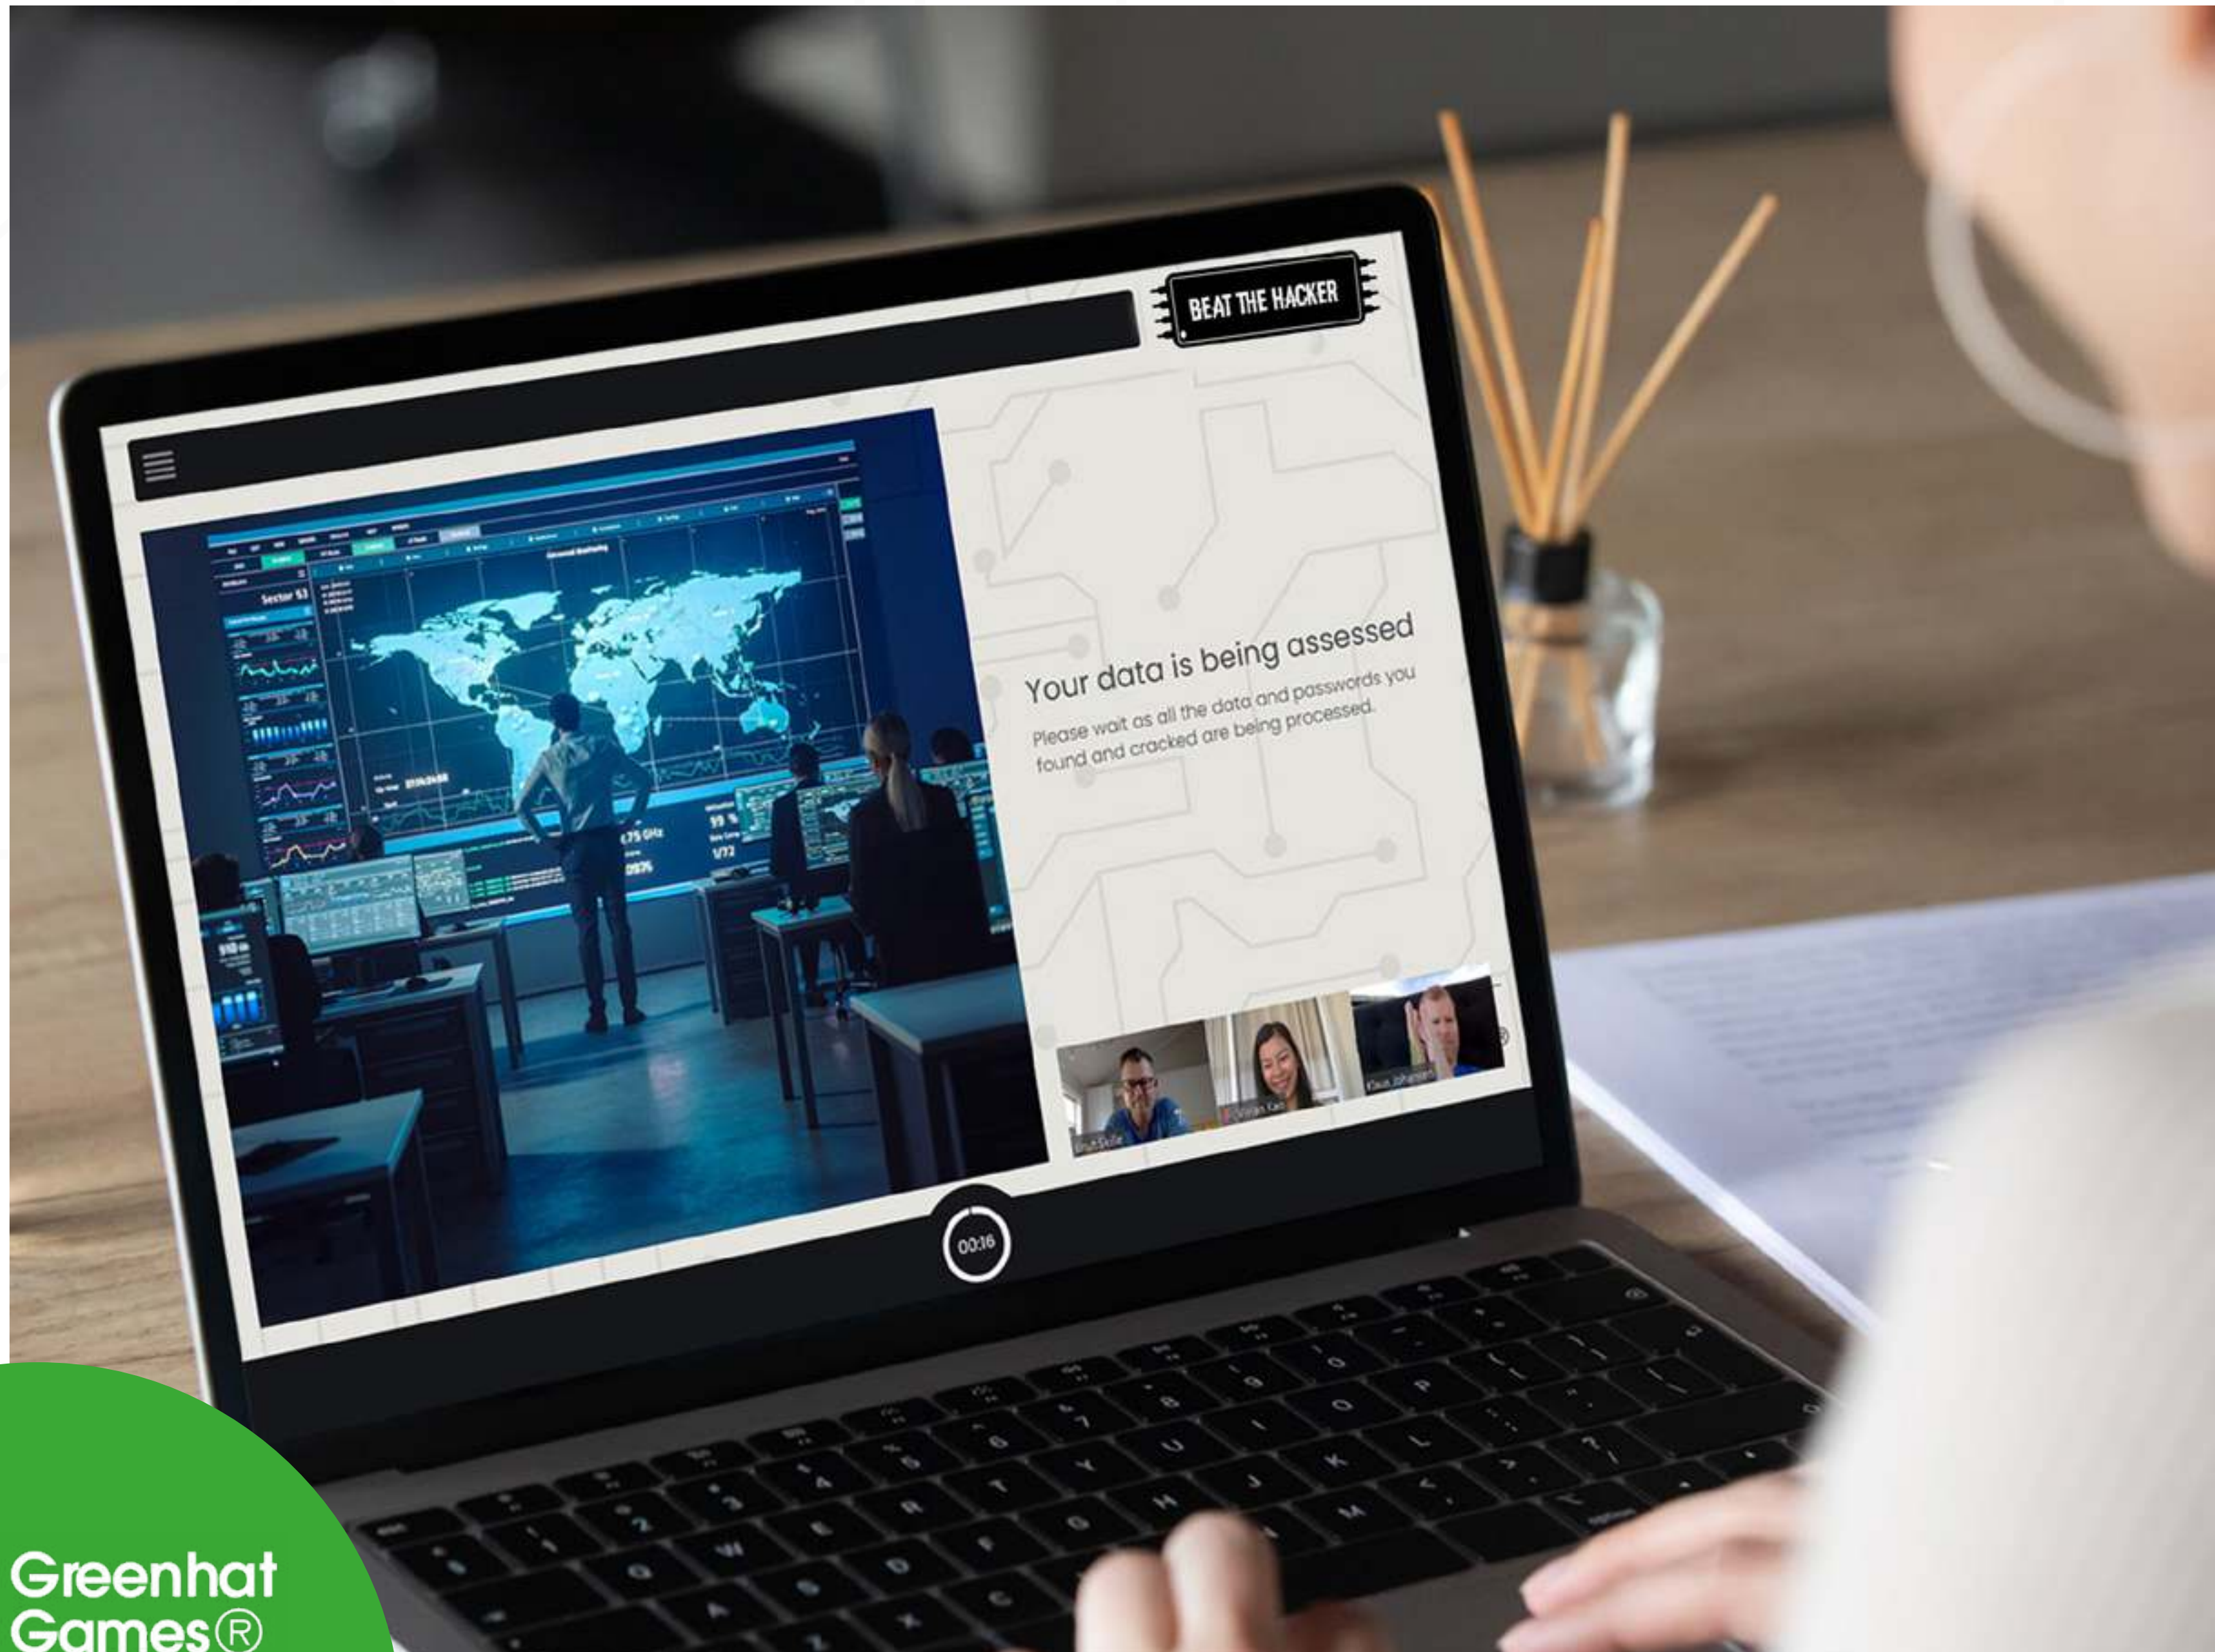

1 hour of fun competitive teamwork

○ Engaging group activity

○ Lots of team collaboration

○ Bring your entire team together whether they're in the office or remote

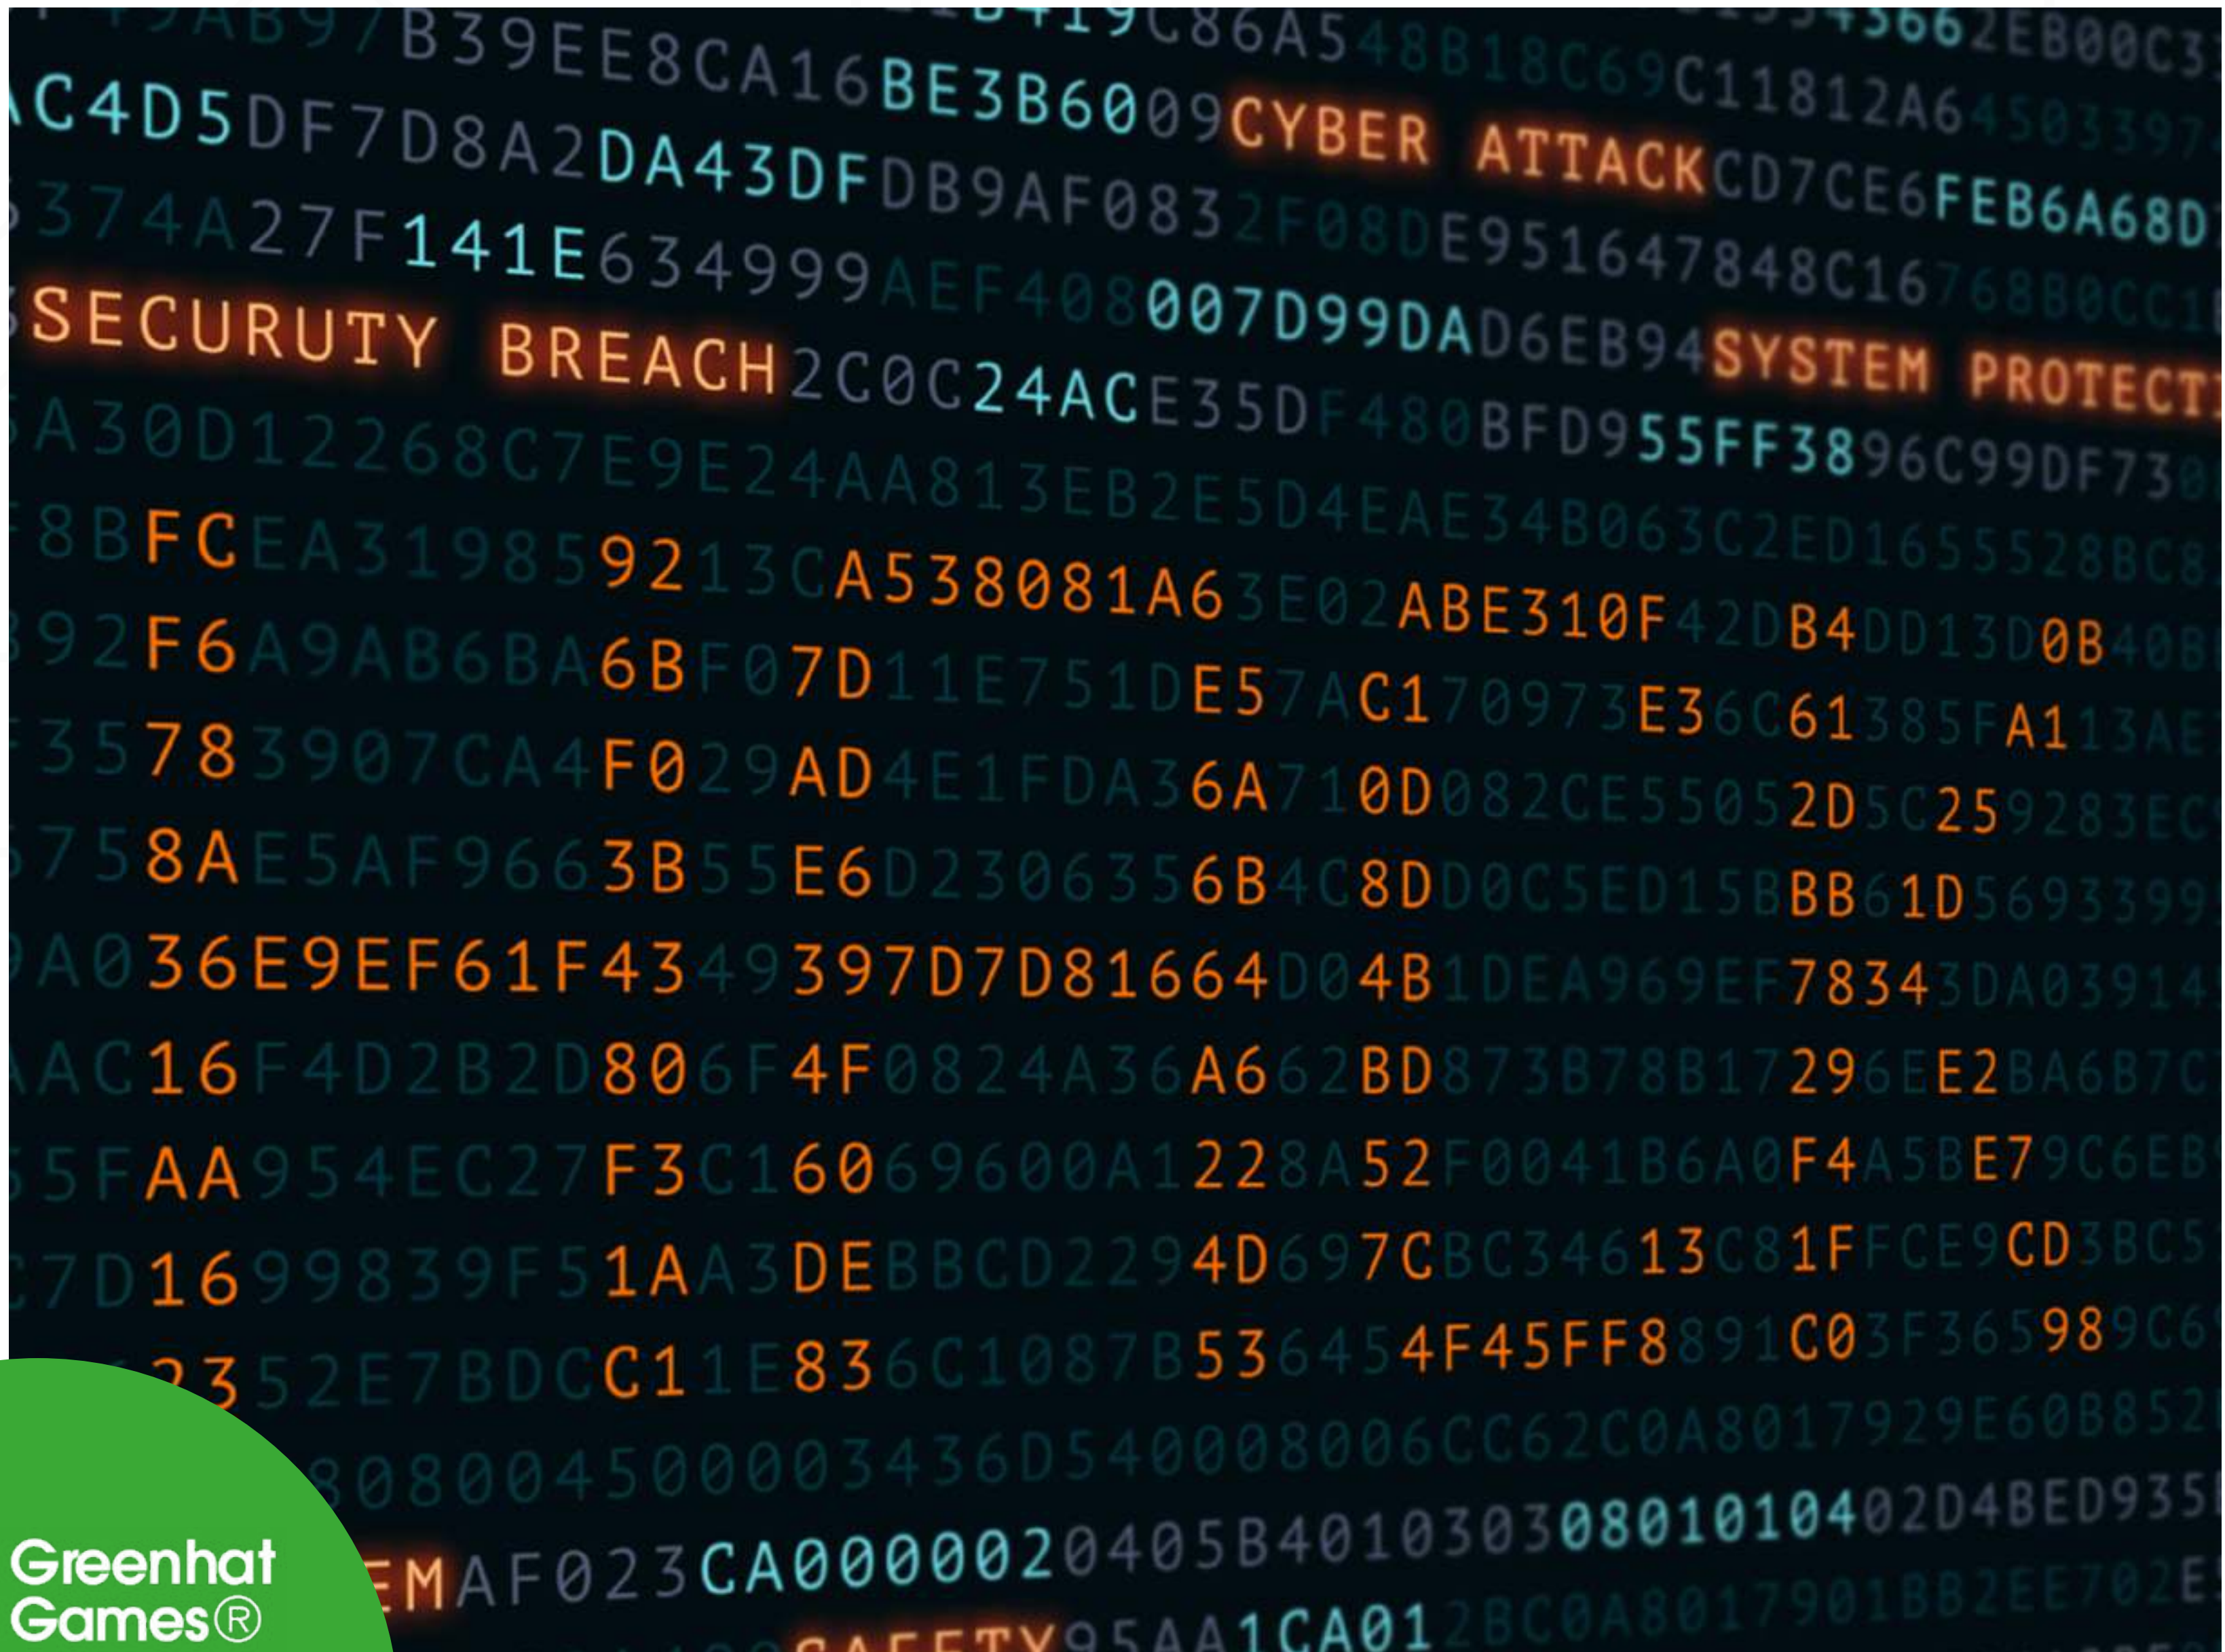

How it works

Play Virtual or In-person

The game is played in teams of 3-6 people.

One person per team runs the game online on a browser and shares the screen.

All team members have clues, so they collaborate to solve the challenges.

Storyline

”You have been hacked”

A group of hackers have managed to break into your servers and lock all your corporate files. They threaten to erase it all in 45 minutes.

But the hackers are not motivated by cash, their agenda is more philosophical. If you and your teams prove your worth, they might relent and release the files.
